

GPS Policy

Purpose

We offer our clients (and the users working for them) a trip registration system for the Arval Car Sharing Vehicles so that the requirements of the tax authorities for such a trip registration system are met. For this processing, we use the GPS data we have collected from the vehicle.

Basis

We carry out this processing on the basis of the consent you give us when activating your Arval Car Sharing account.

Data

To make proper registration possible, we record the following:

- start of trip
 - location
 - time
 - odometer reading of the vehicle
- end of trip
 - location
 - time
 - odometer reading of the vehicle.

The data collected are used to generate the overview.

In accordance with the provisions of the GDPR and the applicable national data protection legislation, Arval undertakes to guarantee and respect the confidentiality and security of the personal data provided by the User. In this context, Arval has taken appropriate measures to secure the use of its App and to prevent misuse.
